NSF and NIH

Why Faculty Partner With Us

Faculty are expected to deliver meaningful broader impacts. We make that **easy** and **effective**, and faculty can be as involved as they choose.

Faculty work with us because we offer:

- Proven outreach infrastructure
- Research-based educational design
- Scalable public engagement
- Long-lasting impact beyond a grant

Case Study

Working with one faculty, we created the Bee Waggle Dance game, which engages **10,000+ learners** annually.

A second game from the partnership, released late 2024, has reached 4,000 learners. A third game is on the horizon.

You focus on the **science**.
We handle the **broader impacts**.

What We Do

Provide learners with engaging, accessible learning experiences.

Our most effective formats include:

- Interactive games
- Virtual tours and experiences
- Videos, stories, and lessons

Our tools are:

- Designed by ed professionals
- Vetted by experts
- Accessible worldwide
- Built for long-term use

We work with:

- Faculty or PIs – all outreach experience levels
- Grant teams, BI coordinators
- Education and outreach partners
- Institutions seeking scalable public engagement

We can offer:

- Broader impacts plans for proposals
- Outreach product design and development
- A ready-to-use outreach platform
- An audience beyond your institution
