

Date: _____ Name: _____

Create your own

- 1) Pick one question from step #3 in the activity - write and answer it here.
- 2) Give one example of a predator/prey relationship. Draw it out.
- 3) Explain one key difference between commensalism and mutualism.
- 4) Explain one similarity and one difference between parasitism and predator/prey interactions.

5) Let's design your zombie maker.

a) What kind of pathogen is it? (Circle one and draw a picture of it)

Insect parasite

Bacteria

Virus

Fungi

Protist

Flatworm

b) What is its name? And what is its nickname?

c) Where is your zombie maker found?

3) What type of organism does your zombie infect?

4) How does your zombie spread?

5) Draw its life cycle (how does it reproduce? Is that part of how it spreads?)
