

Human Skeleton Anatomy Activity

Our bodies are more than they appear on the outside. Did you know that they are made up of over 200 bones?

In this worksheet, we are going to review some of the major bones within the body. The parts of the skeleton have been labeled. Your challenge is to write the correct name for each part.

If you want to have more fun learning about bones, try our Bone Lab. You can use our interactive tools and games to learn about the human skeleton and our busy bones.
